## South Carolina State Survey Responses

<b>State Agency Information</b>	
<i>Agency with primary responsibility for enforcing underage drinking laws:</i> State Law Enforcement Division (SLED)	
<i>Methods by which local and State enforcement agencies coordinate their efforts to enforce laws prohibiting underage drinking:</i> The bulk of local enforcement efforts aimed at proactively reducing underage drinking are through the South Carolina Alcohol Enforcement Teams (AETs), a network of local law enforcement, prevention professionals, and community partners organized at the judicial circuit level that is funded and coordinated by the SC Department of Alcohol and Other Drug Abuse Services (DAODAS). There are 16 circuits in our State. In some of these circuits, the SLED vice officers assigned to that area work closely with the AET coordinator and participate in some operations. At the State level, SLED stays up to date with AET activities through its participation in the State Underage Drinking Action Group (UDAG), which serves as an advisory body to the AET efforts. In addition, DAODAS and SLED staff meet regularly to discuss State underage drinking enforcement efforts.

<p>Program description: South Carolina has a statewide network of local law enforcement and prevention agency partnerships called the Alcohol Enforcement Teams (AETs). Each of 16 judicial circuits has an AET that conducts best practice law enforcement operations while offering prevention activities and raising community awareness. Typical enforcement strategies include compliance checks, public safety checkpoints, and controlled party dispersals. We have separated this program into two parts (enforcement and education) on this report to distinctly display the numbers served by enforcement efforts and education efforts. Given the population-level impact of the strategies conducted by AETs (with no individual being directly “served”), we consider the affected population to be almost the entire population of 14- to 20-year-olds in the State.</p>

<p>Program description: From fiscal year (FY) 2008 to FY 2010, DAODAS implemented a mass media campaign around the theme “Parents Who Host, Lose the Most” (created by Drug-Free Action Alliance). DAODAS aired a public service announcement (PSA), developed in the State, known as the “Mad Dad” spot; it focused on the socially unacceptable nature and illegality of serving alcohol to another parent’s child. In addition, DAODAS funded two blitzes of radio PSAs on Clear Channel stations in the State. The campaign has been suspended for FY 2011 due to lack of funding, but the Web site, Facebook page, and many educational materials remain accessible and in use by local substance abuse prevention providers. We have 33 local county alcohol and drug abuse agencies in SC that provide prevention, intervention, and treatment services to the citizens in the 46 counties of South Carolina. The numbers served are best estimates of the number of parents reached via the media-buy strategy used. An online evaluation of almost 300 parents conducted by a media research company showed high rates of understanding and acceptance of the message, and a substantial percentage of those said the commercial led them to have conversations with their children and other parents on this topic.</p>

<p>Program description: The Palmetto Initiative for Campus/Community Collaborations (PICCC, pronounced Pisces) is an Office of Juvenile Justice and Delinquency Prevention (OJJDP)-funded discretionary grant awarded to South Carolina to address underage and high-risk drinking on college campuses through a comprehensive approach that includes considerable involvement from the community sector. DAODAS gave minigrants to Clemson University, the University of South Carolina, Furman University, and the College of Charleston to implement a comprehensive series of workplans that include retail and social access, coalition building, impaired driving prevention, and policy. Project activities include providing an annual college alcohol issues conference. Given the nature of the multiple population and systems-oriented approaches used by the colleges, we cannot accurately estimate the number of people served or influenced.</p>

<p>Program description: The Alcohol Education Program (AEP) is a diversionary program option for youth charged with an alcohol-related offense. State law requires all 16 solicitors to operate an AEP, though each can determine what the fines and programs that comprise the process are. (The solicitors are equivalent to county district attorneys but instead of serving one county, these elected officials serve multiple counties in the 16 judicial districts throughout the State. Some of the judicial circuits include two counties and one of the circuits has up to five counties. The solicitor serves the counties that are covered by the judicial circuit that they are elected to serve.) In most areas, the DAODAS local provider is contracted to deliver an 8-hour alcohol education program. We only have data for youth who go through that system.</p>

<p>Program description: The Palmetto Retailer Education Program (PREP) is a merchant education program designed and offered in South Carolina for those who sell alcohol or tobacco products. PREP is almost exclusively offered by local alcohol and drug service providers. DAODAS supports the program by purchasing most of the local materials, making content updates, maintaining the Web site, maintaining a database of participants and trainers, and sending out certification cards to those who pass the posttest. The program is 2.5 to 3 hours, with an additional section for on-premises alcohol retailers.</p>

<p>Program description: Most local alcohol and drug service providers deliver some sort of drug prevention curriculum in schools in their area. The vast majority of these programs are not alcohol specific (e.g., Project Northland), but almost all of them are general drug prevention curricula that address underage drinking in some way. In total, through DAODAS funding to local providers, 7,913 students were served in these prevention curricula programs.</p>	

<b>Additional Information Related to Underage Drinking Prevention Programs</b>	
<i>State collaborates with federally recognized Tribal governments in the prevention of underage drinking</i>	No
Program description	Not applicable
<i>State has programs to measure and/or reduce youth exposure to alcohol advertising and marketing</i>	No
Program description	Not applicable
<i>State has adopted or developed best practice standards for underage drinking prevention programs</i>	Yes
<p>Best practice standards description: DAODAS relies heavily on trusted research on underage drinking prevention, most notably the materials produced by the Underage Drinking Enforcement Training Center. In particular, “Strategies to Reduce Underage Alcohol Use: Typology and Brief Overview” gives an effectiveness rating for a wide range of approaches that we are very mindful of when we implement or fund efforts.</p>	
<b>Additional Clarification</b>	
<p>The Enforcing Underage Drinking Laws (EUDL) funding serves as a foundation to our state’s efforts in reducing underage drinking in South Carolina. In South Carolina, we allocate most of our EUDL block grant to our 16 AETs in each judicial circuit. The EUDL funds are added to state dollars, if available, to support the AETs’ operations. Our State goals for our EUDL funding are as follows:</p> <ul style="list-style-type: none"> <li>• Goal #1: To strengthen local efforts to enforce underage drinking laws and raise awareness of the dangers of underage drinking.</li> <li>• Goal #2: To prevent and reduce, through enhanced law enforcement efforts, youth access to alcohol and the availability of alcohol to underage youth.</li> <li>• Goal #3: To build capacity among local law enforcement, alcohol merchants and other key stakeholders to prevent and reduce underage drinking.</li> </ul> <p>The Alcohol Enforcement Team model, which includes community coalition maintenance and development, Merchant Education, and law enforcement partnership, specifies a multi- or single-jurisdictional alcohol law enforcement approach (depending on the needs and participation of law enforcement within the target area) in a community to:</p> <ul style="list-style-type: none"> <li>• Reduce youth access to alcohol utilizing various strategies (social and retail access);</li> <li>• Measure, track and improve merchant compliance with alcohol laws;</li> <li>• Provide research-based Merchant Education;</li> <li>• Build community support for enforcement of underage drinking laws through media advocacy and community coalition maintenance and development; and</li> <li>• Develop local law enforcement support for underage drinking prevention and enforcement efforts.</li> </ul>
